Training Management

HAZOP Awareness e-Learning Course

The HAZOP Awareness e-Learning course is targeted towards managers, designers, operators and maintenance personnel, needing a general understanding of the HAZOP process.

This course is accessed online and is self-paced which means participants can enter and exit the course as many times as they wish until such time the course has been completed.

A Certificate of Completion will be issued once the course has been completed together with our HAZOP Awareness Handbook.

For further information or customised training, call MOXI on 1300 668 992

e-Learning

Target Audience

This course is aimed at managers, designers, operators and maintenance personnel, needing a general understanding of the HAZOP process.

It is also a suitable refresher course for people who have been previously trained in HAZOP.

Course Content

The course is intended to initiate participants into the HAZOP process. The HAZOP process is called for in several Acts and Regulations, and therefore is one of a range of possible legal plant design safety milestones which must be incorporated to satisfy regulatory requirements:

- Regulatory requirements for conducting HAZOPs
- AS IEC 61882-2003. Hazard and operability studies
- Types of HAZOPs and their objectives
- When to do HAZOPs in project life cycles
- HAZOP environment and process
- Team member selection and team roles
- Guide words and their meanings
- HAZOP limitations

Note

This course is only suitable as an introduction. For persons aspiring to be HAZOP leaders, a further more in depth course would be required.

Contact MOXI on 1300 668 992 for further information.
