# E-LEARNING HAZOP AWARENESS

## Target Audience

This e-learning course is aimed at managers, designers, operators and maintenance personnel needing a general understanding of the HAZOP process. The course is also a suitable refresher course for people who have been previously trained in HAZOP.

## Selection Requirements

Nil

## Course Length

Approximately 2 hours. The course is self-paced and participants are able to log on and off as many times as they wish until all tasks are completed.

## Course Content

This course is intended to initiate participants into the HAZOP process. The HAZOP process is called for in several Acts and Regulations, and therefore is one of a range of possible legal plant design safety milestones which must be incorporated to satisfy regulatory requirements:

- Regulatory requirements for conducting HAZOPs
- AS IEC 61882-2003. Hazard and operability studies
- Types of HAZOPs and their objectives
- When to do HAZOPs in project life cycles
- HAZOP environment and process
- Team member selection and team roles
- Guide words and their meanings
- HAZOP limitations

## Outcome

A *Certificate of Completion* will be issued on course completion.
