

EEHA – REFRESHER TRAINING

<i>Course Length</i>	<i>Taught Hours</i>	<i>Practical</i>	<i>Knowledge</i>
<i>1 day</i>	<i>8</i>	✓	✓

Target Audience

This one (1) day program is classroom based intended for Electrical Technicians and Engineers who have previously completed training in relation to the Installation, Maintenance and Design of electrical equipment in hazardous areas. The course aims to provide enhanced revisions and addresses specific changes which have occurred over recent times with regard to standards and regulations and how they apply to hazardous areas.

Course Content

This course reviews basic knowledge of the following:

- EEHA Principles
- HA Classification
- Protection techniques
- Ex Certification
- Competency
- Changes in Standards

Outcome

This is not a competency based course and no assessment tasks are undertaken.

Participants will receive a *Record of Attendance* at the completion of this Refresher training.
